

LIGHTING SPECIALISTS

SOLUTIONS

Welcome, to providing Outdoor path of egress. This information is intended to present the NFPA 101 life safety code as it applies to outdoor egress requirements along with product solutions from various manufacturers. Deciding what is or is not the “public way” is a question that continually puzzles lighting designers, engineers, electrical contractors, and building owners. Ultimately, it’s up to the local authority having jurisdiction to interpret the life safety code and determine what and where the public way actually is.
